Problem Statement

OPAT Has solves the problem

Teachers face a lot of problems retrieve teaching materials, categorizing the content to various levels and find the topic of their interest, and rating the quality of the materials

Solution

OPAT has solved the problem

Through OPAT (One platform for all teachers) teachers can retrieve teaching materials, categorizing the content to various levels and find the topic of their interest, and rating the quality of the materials very easily. Teachers can also upload their materials

Problems It will Solve

01

Save Teachers time by helping teachers find their materials easily without any hustle

02

teachers could see the most upvoted material and can get the best quality as well in good quantity as there would be variety of options

We will need a real-time
Database of materials
uploaded by teachers on our
platform and personal details
of teachers while they are
signed in.

**Data
storage
and analysis**

Thank you !!
